DISPOSABLE PRODUCTS
for personal hygiene

Danfer

medical division

Quality disposable products

With its disposable products, at the hospital or at one's home, it ensures practical, quick and effective daily hygiene for the sick person.

Disposable products eliminate the risk of potential infections caused by regular toilette items and, thanks to the special isocutaneous soap with neutral pH, they also reduce the risk of allergies in the sick person.

In addition, by using Danfer products daily hygiene care becomes faster and certainly less fatiguing for healthcare operators, thus cutting down on times and costs compared to traditional methods.

All products comply with the requirements of the directive in force.

of the directive in force.

GLOVES WITH SOAP

Disposable gloves

The soft fabric and foam with neutral pH 5.5 ensure gentle skin protection.

Recommended for both children and adults.

PACKING

24 cases containing 10 pieces each

DIMENSIONS

16.5 x 31.5 x H 22.7 cm

PROPERTIES

Glove made of soaped sponge and non-woven fabric.

When the sponge comes in contact with a few drops of water, it produces a pleasant foam.

It cleanses, moisturizes and protects the skin.

HOW TO USE

1. Pour a few drops of water on the sponge
2. Cleanse the desired body area.
3. Dry without rinsing.
